Denis Bogdanov

1. *Personal information*

Address	Russia, St-Petersburg
Phone number	+7 921 951 94 20
Date of birth	25 September 1975
Email	bogdanovdv1@mail.ru
Github	https://github.com/danbogd
Social networks	Telegram: @BogdanovDenis, www.linkedin.com/in/denis-bogdanov-3b99a8116

2. Objective

Solidity developer (remote).

3. Education

Mar. 2017	EthereumWorks school lector - Alexander Suhanov (Stanford University)
Jan. 2017	Ambisafe Blockchain school - lector Oleksii Matiiasevych (White Hat Group)
Sep. 2016	Videocourse 36 lessons «Learning JavaScript»
now	Study C++, EOS blockchain

4. Work experience

Aug. 2018 - now	Callisto Network	Smart-contract security auditor	Auditing code of smarts-contracts (over 150) ERC20, ERC223, ERC721, gaming contracts, cryptoexchange, wallets and etc.
Aug. 2018- now	JSC GOSINFOTECH	Assistant Director of blockchain technologies.	The introduction of blockchain technology in the industry (GAZPROM energy sector).
Apr. 2017 — Mar. 2018	Jet Infosystems	Solidity developer	Development crowdSale contracts for ICO, vote smart-contracts.

5. Special skills

The development of smart contracts on Solidity of various degrees of complexity: ICO smart-contracts ERC20, ERC223, ERC721, Oraclizers, DAO contracts (for decentralized autonomous organization), game contracts. Truffle framework, writing tests on JavaScript (async/await) with using framework Mocha, Chai library. Develop a simple decentralized applications DAppc using the library WEB3. Understanding the internal logic of work Ethereum Virtual Machine (using assembly). English language: intermediate.

6. Awards

Third place in St-Petersburg Hackathon 2018 BlockCahin Cup - smart-contracts in the energy sector.
